

The User Story Evaluation Matrix

Score every competitor against the stories your user actually has.

USER STORY	COMPETITOR 1	COMPETITOR 2	COMPETITOR 3	COMPETITOR 4	YOU • TODAY
01 _____ asa ... I need to ... so that ...					
02 _____ asa ... I need to ... so that ...					
03 _____ asa ... I need to ... so that ...					
04 _____ asa ... I need to ... so that ...					
05 _____ asa ... I need to ... so that ...					
06 _____ asa ... I need to ... so that ...					
07 _____ asa ... I need to ... so that ...					
08 _____ asa ... I need to ... so that ...					

 the scale

- 0 = not served · 1 = partial · 2 = served · 3 = served exceptionally
- Score with evidence: a demo, a review, an interview. Leave unknowns blank — never guess.

 reading the grid

- A column of 3s — table stakes. Match it, don't lead with it.
- A row of 0s — nobody serves this story. Your opening.
- A row where scores disagree — contested. Win it with proof.
- Your own column, scored today, not the roadmap.

 the one sentence

- “Everyone does ____; nobody does _____. The ____ is the product.”
- Three stories to build first:
 - 1. _____
 - 2. _____
 - 3. _____
